CARLYLE has said: "Of all public function-

were not those of the upper-crust-the porcelain-ware specimens of Young America-in our city, but the children of those classed as the "carthen-ware and hunchback beings of this nether world."

It may be to some a class to fight shy ofto be styled "the living, breathing, busying, plotting, planning, human vulgarity "-a "species of moral ipecacuanha;" but thanks to the energetic, full-hearted, noble-spirited Bethel management, a large school of ragged, destitute children is being taught to respect the kindling eye; and the exercises of yesterday showed that a work of reformation and selfeducation is going successfully forward with a Total, 1,602,010. class of hitherto uncared-for children. The moving, effective intellects of the present day, in most instances, are those who have come up from the lower ranks. We rejoice to see the benevolent thus engaged in giving mental realize from the good done at the Bathel what will be effected by the Industrial School. These are the civilizing influences of virtue:

"To civilize the rusle, unpolish'd world, And lay it under the restraint of laws: To make man mild and sociable to man. Th' embellishments of life! Virtues like these Make human natureshine, reform the soul, And break the fierce barbarians into men."

#### The K. K. Party.

The leader of this party is WILLIAM petent to explain its principles in effective oratory on the stump, or in eloquent sentences flowing from his pen. This prophet when ho what he writes has more than an ephemeral interest. The party is quite a numerous one, but its members are not vet crystalized into a separate organization; their true ore is encrusted with the earth of recognized parties. The K. K. party leader is ahead of his age; his adopted initials indicate that he K-icks K-aucuses. This eratic gentleman, in return, is kicked by King Kaucus. Many excellent suggestion of public interest he has recently written, which will give the K. K. party recognition by honest men.

Without referring to other points, we commend his views as to the relation, at the present time particularly, of the South and the West:

"The South has not yet sufficiently under stood her relation to the West. The West is the proper arbiter of any quarrel between the North and the South; she lies between; she has ties with both; she has interests in common. She possesses the strength to kee the peace, and to separate the belligerents. She is held by her prosperity to an attitude of community and friendship with her neighbors, customers and countrymen on all sides. She is, therefore, to the Southern people worth more than an army with banners. It is the fault of the South that she has taken dangerous counsel from her passions, and consequently she has not parceived nor appreciated the advantage of this relation to the West—parts of the same great valley and copartners in general welfare. The South should repair the fault at once, and be met balf-way by the West."

Men of thought, of both parties and of all sections of this country, will be profited by careful sifting of the lengthy communions Mr. Conny has made within a few days past 29th of Suptember, he has had the audacity to the Cincinnati Commercial.

#### Discouraging.

Our City Legislators, from their manifest neglect of the recommendations of regular committees, discourage them from spirited action. There seems to be an irrepressible conflict between Council and committees. Even important questions, whose legal relation is vital to the city's interest, are immaturely noted upon, without reference to the Law Committee. The Committee on Roads and Canals have become indifferent from almost dations.

A very large amount of the city legislation is on propositions of improvement, that rightfully belong to a special department of the City Government-we mean the Board of City Improvements-but Council discusses and debates about measures and plans, that economy and good policy would dictate should be of ducks have been shot in the vicinity of introduced and considered by the above-named. Whitney ville, Connecticut, though they have introduced and considered by the above-named Board. The City Council would do well to turn over a new leaf in reference to its treatment of the Board of City Improvements and committees. Let the weekly session of the Board be short and business-like. Money would be saved by restricting most of the discussions to committees.

#### The Coal Fields of Ohio.

In thirty counties of Ohio coal abounds. Twelve thousand square miles of coal in one State, easily accessible by mining! We excel all England in the extent of coal area, and our mines are worked more economically as the strata are nearer the surface. Besides, most of the same area—say eight thousand square miles-abounds in iron ore. Efforts are being made to manufacture merchantable iron by means of bituminous coal. The trade in both these products of Ohio has, latterly, increased with great rapidity. The consumption of coal is now six-fold what it was seven years ago. Iron is being used for many new purposes, and the manufacture of it in Ohio has become a very large business. Near fifty million bashels of coal, worth five millinus of dollars, are mined in Ohio annually.

HEATY ROBBERY IN BALTIMORE,-On Sunday night the tailoring establishment of Mesers. Patterson & Fields, in Baltimore, was robbed of clothing and stock valued at \$3,500. From the quantity stolen it is presumed that the thieves conveyed their plunder away in a bost. On Menday afternoon about three thousand dollars worth of the goods were found in a house on Gibson's wherf

ED The residence of R. A. Taylor, in Greensburg, Ky., was destroyed by are re-cently. Loss \$8,000. Our Western Territories.

The youth of the West now growing up are to be men of influence, in an influential portion of the country. Across the State of Ohio most of the travel is to pass from the Atlantic to the Pacific States. The Territories West of us, in area, exceed, in square miles, the present organized States. Wake up, boys! wake up, laborers and mechanics, to the prospective destiny of the new States West of the Carithe has said: "Of all public functionaries boarded and lodged on the industry of modern Europe, none is worthier of the board he has than those who speak spiritual things to men."

We add, those are worthler who are engaged in the benevolent heart-work of gathering together the children of the poor; gladdening their hearts with encouraging accents of love; and instructing the ignorant and neglected little ones in the better way.

Yesterday was a holiday of Thanksgiving to some three hundred Bethel children, who were provided with a choice repast. There children were not those of the upper-crust—the porce were not those of the upper-crust—the porce in every a real many and respective destiny of the new States West of the consultation with a man passing under the name of Brown. Neither of them have yet been arcsted.

Neither of them the exchanges of continents.

The area of the present States is thus reported: Rhode Island, 1,300; Delaware, 2,120; Connecticut, 4,674; Massachusetts, 7,800; New Jersey, 8,320; New Hampshire, 9,200; Maryland, 9,674; Verment, 10,211; South Carolina, 24,500; Maine, 30,000; Indiana, 33,800; Kentucky, 37,680; Ohio, 39,964; North Carolina, 45,000; Tennessee, 45,600; Pennsylvania, 40, 085; Louisiann, 46,481; Missouri, 47,156; Alabams, 50,722; Iowa, 50,914; Arkansas, 52,198; Florida, 53,786; Wisconsin, 53,024; Illinois elements of power in each little voice and 55,405; Michigan, 56,243, Georgia, 58,000; Virginin, 61,352; Mississippi, 67,380; Minnesota, 141,000; California, 188,000; Texas, 237,821.

Compare the new with the old, and it will appear that the Territory of Kansas was well worth the struggle to retain it free-its area is 19,000 square miles greater than the whole New England States, New York and New and moral direction to the outcast. We can Jersey. Her twin sister, Nebraska, has a domain greater by 95,000 miles than all the non-slaveholding States, except California, Oregon is nearly equal in extent to all New England, New York, Pennsylvania, Ohio and Indiana. New Mexico and Messilla, being 288,000 square miles, have more land surface than all New England, New York, Pennsylvania, Ohio, Indiana and Illinois. Washington Territory exceeds in extent all New Ling-McMillan Corny, of this city, who is com- land and New York. Every teacher, every scholar, every farmer, every mechanic, has as Interest in the new Territories, and the new Territories will, no doubt, have, in time, incidentspeaks is listened to with deep interest, and ally or directly, a great interest in them. The next census will silence all clamors about the dissolution of the Union.

> AN OPERATIO PLAY .- A late London lette dramatized by Mr. Tom Taylor, under the title of The Fool's Revenge, and produced at Sadier's Wells Theater. We remember to have seen a drama founded upon Victor Hugo's story, from which the libretto of the opera ! taken, performed at least ton years ago upon the boards of one of our theaters under the name of the Jester and his Child. So Tom Taylor's version can not be very novel. Open ots are almost always taken from drames o familiar incidents in history or fiction, and the idea of inverting the order is somewhat original nal, particularly when we remember that Rigolato was a play long before it was set in music by Verdi.

A NEW YORK BROKER IN TROUBLE .- Mr. William Shipman alloges that some time since he pieced a number of notes, valued at \$10,000, in the hands of a profer named Charles Wood, Wood disappeared from his place of business; since which time he has heard nothing of his use, notes. The family of Mr. Wood reside in Brooklyn, son Brooklyn detective was detailed to look for the missing broker. On Monday evening the officer succeeded in tracing bim to Clark's Hotel, in Fifth-avenue, New York, where he arrested him .- Tribune, 23d.

COUTINAS, THE INSURGENT. -- Cortinus has been under indictment in Brownsville, for murder, for the last eight years, and at the isst term of the Court several indicaments were found against him for horse-stealing. Much had been said about arresting him, and honce his anxiety to put the civil author ity out of existence. Since his attack of the to propose that, as a consideration for his re-tiring, the authorities should pleage them selves to dismiss all indictments against him, and that in future no prosecution should be Instituted against him or his men.

ARREST OF AN ABOLITIONIST IN GROBERTA -- A man named Wm. Scott, connected with the house of Chas. Scott & Co., of New York, took occasion, while in Columbus, Ga., last week, very foolishly, to express great sympathy for "Old Brown," his opinion of the fairness of the trial, &c. He had one or more of Bescher's includiary sermons, which he also thought proper to indorse. He was afterward arrested, and Canals have become indifferent from almost directed to leave by the first train for the discourteous treatment of their recomment. North, which he doubtless did, as there was a very strong disposition and anxiety, generally, to use violence upon him.

A New Species of Duck .- The New Haven Journal has seen a new species of wild dack of extreme beauty. It says: "The variety and delicacy of the tints of the plumage and their graceful shading is quite rare in so com-mon a bird. Several pair of the same kind never been seen there before.

A NEW PAPER AT VERA CHUZE-A new triweekly, just issued at Vera Cruz, bears the expressive name of William Tell. It is deveted to the cause of liberty, in which the editor proposes to use not only the weapon of argument, but those of fun and ridicule also, account panying them with suitable illustrations, after the style of the London Punch and Paris

CHURCE DESTROYED BY FIRE.—The old Methodist Church at Wood End, Lynn, was destroyed by fire on Sunday evening. At the time the fire broke out the church was crowded with people, including a large number of children. A lady sitting on a seat near the door felt the heat from the basement below, and gave the alarm, and all got out in safety. Loss about \$6,000.

A NEGRO HANGING HIMSELF THROUGH FEAR. A negro at Boonsboro, Md., committed sui-cide on Tnesday last, by hanging himself with a comfort to a tree. Rumor says he had too great an intimacy with a white girl, and fearing that something serious would be done with him, he ended his career in the manner

A MURDER COMMITTED WITH A NAIL.—A man was found dead near Vidella, La., a short time since, with a tenpenny nail driven to the head into his right eye. There was no mark or sign by which the deceased could be identified; and from the fact that he had nothing valuable on his person, it is supposed that he had been murdered and robbed.

FENALE LABORIS BRITAIN .- The last British census, in its statistics of the employment of women, reported that there were 200,000 fe-male servants and 500,000 business women. One item in the latter list was 26,000 butcherwives, women who do not merely preside over the business, but buy stock, put down meat, and drive a cart, if necessary.

#### LATEST BY TELEGRAPH

#### From Lafayette.

LAPAYETTE, November 24 .- A descent was made to-day upon the premises of Alf. Cox, a well-known colored man of this city, by the proper officers, to arrest a fugitive slave supd to be concealed there, belonging to Sanord Rising.

The slave was not found, but a large num-ber of pikes discovered in a box in the cellar. Cox has been seen in frequent consultation

No harm can befall them as long as we have breath and strength to defend them. The gentlemen immediately packed up and started, end on his return home found that his servants had been vigitant and faithful during his absence-performing their usual duties by day, and carefully guarding their sacred trust

The same number of the Disputch remarks: When the news reached here had Saturday hight that armed Abolitionists were marching on to Charlestown to rescue the that and murdeser, Brown, scores of servants fled to their masters for protection, and many of them begged to be marched to the scene of action, and to be allowed to repel the invaders. If old Brown and his associates were turned over to them, the cause of excitement would soon be

Taxation and Population .- It may be in-Taxarios and Forestation, —it may be in-teresting to note the proportion which the na-tional expenditure bears to population in some of the European States. In 1855 the estimated population of the Austrian empire was returned at 39,411,599, and the public expenditure was £49,288,618, or an average of £1 0s 5d per head. To 1857 the estimated opulation of Spain was 10,301,851, and the public expenditure was £18,033,001, or an iverage of £1 2s td per head. population of Portugal was 3,499,121, and the public expenditure was £2,756,292, or an average of 16s per head. The population of Switzerland in 1857 was estimated at 2,590, 000, and the expenditure was £608,240, or about he per head. The population r about 5s per head. The population f Greece in 1854 was 1,048,150, and in 1858 public expenditure was estimated at £640,941, or about 12s per head.

UNDROVOKED ASSASSINATION IN KENTUCKY. John C. Taibots, the proprietor of the Man-sion House, in Bardstown, Kentucky, was killed in that city on Sanday night, by T. Hinds Slaughter. The latter was drinking, neu Talbott refused to give him more whicky This exasperated Slaughter, who struck Talbor several times with a club, and finally chased him out of the hotel. As Talbott retreated, Slaughter saw Talbott's shot gan convenient snatching it, discharged it, killing Mr. Talbett almost instantly.

PLOT TO BLOW UP A TENNESSEE PLANTER'S House wird Guspowoss,-On Saturday great excitement prevailed in the vicinity of Germaniown, Tenn., in consequence of the discovery of a plot, conceived by negroes and white men, to blow up the residence of a planter named Brown by means of gunpowder, The plot was discovered by the unguarded admissions of a negro boy, and subsequent investigation led to the arrest and examination of every negroes supposed to to implicated

Encouraging Spicros.-An advertisement in a country exchange, concerning a new kind of cordist, says: We have no doubt many perwhich the latter agreed to get discounted. sole may even felled whicky, the best of Soon afterward Mr. Shipman charges that killed, by drinking bad whicky, the best of some have been reined in booth if not actually reason why our cordial should be in general

> mar'A Mr. Thomas, residing to the eastern part of Tazewell County, Ve., was murdered one night hast week, with his wife and chil dran. Two of his negroes, who were suspected the crime, fled, but one of them was cap-

AB-The Marquis of Westminister recently appeared at Court, wearing a sword, on the pummet of which are neveral blocks of houses in the shape of a diamond worth \$150,000.
